Discover the Benefits of a Badu® SwimJet

Now you can create an aquatic workout center and a virtual water park in your own backyard and enjoy all the benefits of water therapy.

Aquatic exercise is one of the best exercises you can do. Gentle and soothing — with no stress on joints or bones — **swimming is a superior method for staying in shape.**

With a Badu SwimJet System from Speck Pumps, any pool can become an aquatic workout center. You'll burn calories, strengthen muscles and soothe body aches by swimming against a gentle or increasingly insistent current. You control the degree of workout you want — building body, mind and spirit.

And when you're done with your aqua therapy, relax with a pulsating, invigorating massage by attaching the massage hose to the jet nozzle.

Consult your physician before attempting any strenuous exercise. This product may not be challenging or satisfying for all levels of exercise.

your pool can become a lap pool providing well paced aerobic exercise, or a treadmill for swimming, or simply a place for family fun reminiscent of a water park.

Swim, play, exercise, relax — the benefits of the Badu SwimJet System are enjoyed by all ages.

Badu Systems

Badu SwimJet Systems are synonymous with the highest level of quality you've come to expect from German engineering. In fact, **95% of all SwimJet Systems installed in the U.S. are made by Speck Pumps** — proof that our SwimJet products are the best. Why settle for second best when you can have a Badu SwimJet System in your pool?

Any pool, large or small, can provide a mild to Olympic-style workout with endless swimming. Whatever type of pool you currently own or plan to build, **a Badu SwimJet System will increase overall use and value.**

Badu SwimJets offer the ultimate in flexible installation options and exercise levels.

How They Work

A SwimJet System creates a current within otherwise still water. To accomplish this, the water is pumped into the pool through one, two, or three specifically engineered large recessed jet nozzles. These nozzles are mounted in an underwater housing in the pool wall or in a housing installed over the wall.

The water pump that comes with the system works specifically with the SwimJet nozzles to create a current of up to 5,700 GPM. The jet nozzles can be adjusted to change the depth and width of the current for an enjoyable experience or a low impact water exercise.

Installation

A Badu SwimJet System can be installed in any type pool, new or existing, large or small, from gunite and fiberglass to vinyl liner. Each Badu SwimJet System comes with a complete, easy-to-follow installation guide and a customer assurance hotline for tech support.

WHICH **BADU**® SYSTEM IS RIGHT FOR YOU?

Badu®Jet IMPERIAL FOR NEW POOLS

The BaduJet Imperial has a timeless and clean design, made of high quality stainless steel to harmonize with any style pool.

- The BaduJet Imperial offers two adjustable jet nozzles as well as integrated LED lighting.
- The BaduJet Imperial features a 19" stainless steel corrosion-proof cover and handles.
- The handles enable a user to keep their grip during a massage, and make it easier to adjust settings while the unit is running.
- Water volume control and air regulator are conveniently located on the face of the housing.
- The nozzles and controls are also available in stainless steel, a beautiful option for specific applications.
- A 5' pulsating massage hose is included with the system.
- Winterization is easy with Speck's winter cover kit, which fits directly over the face of the BaduJet system.

Badu®Jet Inspiration☆☆ FOR EXISTING & NEW POOLS

The BaduJet Inspiration is perfect for existing in-ground pools as well as new installations and even above ground pools. The system features dual jets for optimal swim against the current action, no-impact aquatic exercise, water massage and fun for the entire family.

- Two-piece body molded of a heavy duty ABS plastic immune to chemicals and environmental abuse, to provide a rugged and attractively styled water treadmill.
- The BaduJet Inspiration also incorporates a LED Light, helpful when using the unit at night or just to give the pool a beautiful glow in the evening.
- Built in 4HP self-priming plastic pump and control box.
- The BaduJet Inspiration comes with a 15' cord with GFCI twist-lock cord.
- A 5' pulsating massage hose is included with the system.

Badu®Jet super-sport II FOR NEW POOLS

The full-featured BaduJet offers suction and discharge in the unique, patented, one-piece dual nozzle housing. Water volume control knob, LED light and on/off buttons are conveniently located on the face of the jet housing.

- The ultimate all-in-one dual nozzle system, the BaduJet **super-sport** creates an aquatic workout center, a virtual water park.
- Water volume control and air regulator are conveniently located on the face of the housing.
- Water intake is nearly undetectable with Speck's unique housing design.
- A 5' pulsating massage hose is included with the system.
- Winterization is easy with Speck's winter cover kit, which fits directly over the face of the BaduJet system.

Badu® Stream II FOR NEW POOLS

The BaduStream II Jet System offers many different packages in a wide price range, to satisfy a variety of exercise styles and budgets. The system accommodates installation in limited space and varying pool wall designs.

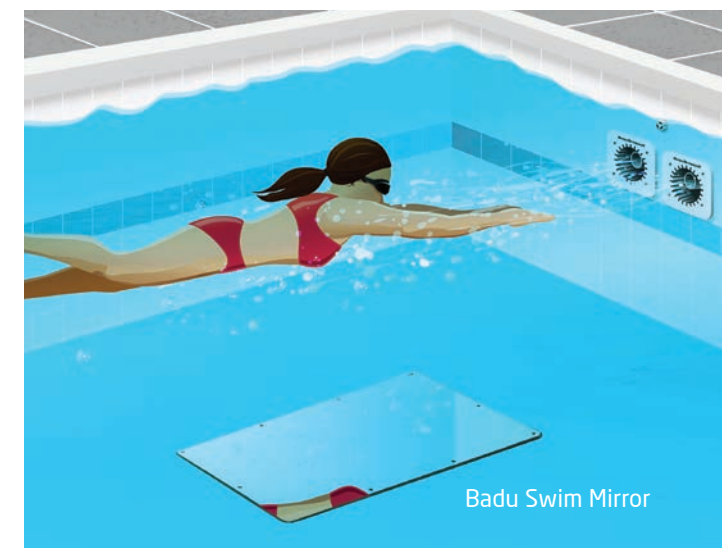

- The BaduStream II can be used as a single, double or triple jet system with one or two pumps.
- A single jet system generates a narrow and faster stream and is the most economical swimjet system.
- With two jets, it is perfect for the recreational swimmer with an intermediate level of exercise.
- The most powerful system available is our three jet/two pump system, providing the ultimate performance for higher levels of exercise.
- The BaduStream II can be installed in vinyl liner, steel wall, fiberglass and gunite pools.
- Each BaduStream II jet is a flush mounted anti-entrapment combination fitting in its own housing.
- Options include a therapeutic pulsating massage hose, perfect for relaxing after a workout.
- Winterization is easy with Speck's winter cover kit, which fits directly over the face of the BaduStream Jet System.

The BaduStream II can be used as a single, double or triple jet system.

Badu® Swim Mirror SWIMJET ACCESSORY

The Badu Swim Mirror is the perfect addition to a Badu SwimJet System. This portable mirror is designed to be the perfect tool to help swimmers stay in the "swim lane." The Mirror provides immediate feedback to help perfect all swim styles and make workouts more enjoyable.

Badu Swim Mirror

ALL BADU SYSTEMS INCLUDE a control box and self-priming pump(s). The massage hose with pulsator is included with the BaduJet system and is an option for the BaduStream.
